Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 and 16-31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Pat. No. 4,774,734 to Mills (note especially Figures 5-10 & 14; column 3, lines 25-68; column 4, lines 1-5 & 12-58; column 5, lines 1-43 & 47-68; and column 6, lines 1-13 & 51-57).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mills '734. Mills '734 Mills '734 discloses the claimed invention except for the exact dimensions of the pocket opening, width and depth as recited in Applicant's claims. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the convertible blanket of Mills '734 with a pocket having the particular opening, width and depth dimensions as claimed by Applicant, since it has been held that discovering an optimum value of a result

effective variable involves only routine skill in the art. *In re Boesch*, 617 F.2d 272, 205 USPQ 215 (CCPA 1980).

5. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Mills '734 in view of U.S. Pat. No. 5,920,931 to Zuehlke et al. Mills '734 does not specifically disclose a condition wherein the blanket is made from a man-made fleece material. Zuehlke et al. '931 provide the basic teaching of a convertible blanket (12) formed from fleece (26). The skilled artisan would have found it obvious at the time the invention was made to form the convertible blanket of Mills '734 from a man-made fleece material in order to provide a simple alternative supporting element which imparts enhanced user comfort as desired.

6. Claims 32 and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mills '734 in view of U.S. Pat. No. 5,588,749 to Ishikawa. Mills '734 does not disclose a condition wherein a hood is provided for attachment to an edge of the blanket. Ishikawa '749 provides the basic teaching of a convertible blanket (2) provided with a selectively attachable hood (3). The skilled artisan would have found it obvious at the time the invention was made to provide the convertible blanket of Mills '734 with a hood in order to increase the versatility of the blanket as desired.

Response to Amendment

7. Applicant's arguments with respect to claims 1-33 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gottlieb '634, Akkad '845, Akkad '401, Khan '127 and Barajas '331.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

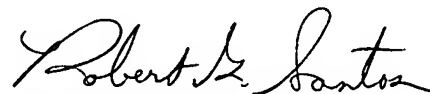

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
